About

I'm a Computer Science student passionate about front-end development and building interactive, user-friendly web applications. With a growing portfolio of projects and a strong foundation in HTML, CSS, JavaScript, and React, I enjoy turning creative ideas into functional digital experiences. Always eager to learn and improve, I actively seek opportunities that challenge my skills and expand my knowledge in software development and UI/UX design.

WORK EXPERIENCE

Front-end Developer Intern @DEPI

June 2025 - December 2025

- Built a full-stack web application (Doctor Appointment System) using React for the front-end and Node.js for the back-end.
- Developed responsive and interactive user interfaces using HTML, CSS, JavaScript, React, and Bootstrap.
- Implemented component-based architecture and reusable UI components in React.
- Integrated APIs to handle data fetching, booking appointments, and managing users.
- Worked with state management and handled form validation and user interactions.
- Used Git & GitHub for version control and project collaboration.
- Improved UI/UX, fixed bugs, and optimized performance.
- Gained hands-on experience with real-world development workflow and full project lifecycle.

Winter Internship – ITI (Information Technology Institute)

January 2025 - February 2025

Front-End Development Course– SEF Academy

29/7/2024

- Completed certified training in HTML, CSS, JavaScript, Bootstrap, and React.
- Built small projects with continuous feedback from instructors

Web Development Trainee– Web Masters

September 2024 - December 2024

- Gained practical skills in responsive design and web layout techniques
- Applied front-end tools in guided practice projects

EDUCATION

Mansoura University– Faculty of Computers and Information
BS in Computer Science

- Grade: Year1 - 91.36%
- Grade: Year2 - 91.52%

PROJECTS

Doctor Appointment System

- Full-stack web app for booking and managing doctor appointments.
- Built responsive UI with React and handled data using Node.js APIs.
- Implemented appointment booking, data fetching, and user interactions.
- Used Git/GitHub and applied clean, component-based architecture.

Bayyinah

An all-in-one Islamic platform designed to help you read the Quran, recite daily Adhkar, keep track with a digital Sebha, and stay updated with accurate prayer times.

- *Quran Viewer Browse all surahs with verse-by-verse display, audio recitation, and clean typography.*
- *Adhkar Page Morning & evening Adhkar in well-organized cards, with repetition counters.*
- *Digital Sebha A simple click-to-count tasbeeh counter.*
- *Prayer Times Accurate prayer times based on your location.*
- *Clean interface with support for Dark and Light modes.*

Quiz App

- *Built an interactive quiz app with multiple-choice questions and timers*
- *Tools Used: React, Material UI, API*

Dashboard App

- *Developed a dynamic admin dashboard with data visualization, charts, and user management features*
- *Used React and Chart.js for real-time data display and user interaction*
- *Tools Used: React, Material UI*

E-Commerce Website

- *Developed a responsive e-commerce website with product pages, shopping cart, and checkout features*
- *Implemented product sorting, and dynamic cart updates using React*
- *Tools Used: React, BootStrap*

Weather App

- *Built a weather forecasting app using HTML, CSS, and JavaScript that fetches real-time data from a public weather API*
- *Implemented location-based search and dynamic UI updates*
- *Tools Used: HTML, CSS, JS*

To-Do List App

- *Created a task management app with task creation, completion, and deletion functionality*
- *Focused on clean UI/UX design and state handling in JavaScript*
- *Tools Used: HTML, CSS, JS*

SKILLS

- *Front-End:*
 - *HTML5, CSS3, JavaScript (ES6+)*
 - *React.js*
 - *Bootstrap*
 - *Material UI*
 - *Responsive Web Design*
- *Tools & Technologies:*
 - *Git, GitHub*
 - *npm*
- *Concepts:*
 - *Component-Based Architecture*
 - *State Management (React)*
 - *API Integration*
 - *UI/UX Basics*
